

**RANCHO BERNARDO TRAFFIC COMMITTEE  
AGENDA FOR FEBRUARY 23, 2009 MEETING**

You have received copies of the communications with the City's Deputy Director of the Transportation Engineering Operations Division.

We can now deal directly with that Division and receive a Traffic Request Number which will provide an approximate response date. This meeting will be geared to take advantage of this opportunity.

- 1) Compile a list of unresolved traffic issues.
- 2) Prioritize the list.
- 3) Establish procedure for transmitting the issues to the City's Transportation Engineering Operations Division.

Please let me know if there are other items that should be included in this meeting.
